

Added value to your projects

ARGENTINA

Valtria around **the world**

In the Buenos Aires office, on September 1 we will be **21 people**, we do not have a photo all together because there were incorporations during the pandemic ... and we cannot comply with the distancing if we have to take a photo.

OFFICE:
Buenos Aires (Argentina)
ADDRESS:
Av. Córdoba 966, C1054 AAV
Buenos Aires, Argentina
+54 1152354925
TEAM:
21 people

- **When and where was your office created?**

We are well in the center of the city, a few meters from the Obelisk that is the symbol of the city of Bs As.

The Argentine office was formally created in January 2015 and operatively we began to function in June of the same year when we opened offices, between January and June we work in the pubs of Buenos Aires, we can say (and with pride) that the office was born in a pub ... because we got our first contract working on the Saint Gobain offering, which is now a global customer of the group, in a pub, the purchase order came to us while we were in the pub.

Added value to your projects

- **Where and with which clients do you work?**

We carry out our activity in Argentina, we support the Chilean office with commercial and engineering actions, and also commercially in Uruguay and Paraguay (even without projects, we win in these countries).

Our clients are pharmaceutical laboratories, the most important of which are Laboratorios Casasco, Maprimed, Grupo Chemo, etc.

Our most representative works are the new Casasco Solid Products plant in Pilar, Mabxience, which is where the API of the Asta Zeneca vaccine for COVID 19 is produced, the BBRAun plant in Argentina and the first project we did with Saint Gobain, from which was born the global relationship with this client.

- **Can you tell us any news of interest from your office or a local event in recent months**

We are growing a lot, having won new contracts and hiring staff. We have taken our first project in Argentina with HVAC and panels, until now we had only done HVAC or HVAC and civil.

- **Your ambition for the rest of 2021!**

Continue growing and consolidating the new members within the super cohesive group that we already have.
