

Added value to your projects

*Let's talk about **people**...*

NAME:
Marcelo Fuentes

POSITION AND DELEGATION:
Head of Site (Barcelona)

WHERE ARE YOU FROM?

I am from Chile, from the city Viña del Mar. I have lived in Barcelona for 17 years now, have 4 kids, 3 men that live in Chile and here in Spain I have a girl.

● **Why did you decide to join Valtria?**

I had been working as a freelancer for 10 years when in November 2019 I worked for Valtria in the works in Ascencia Diabetes Care in Algeria. One of Valtria's supervisors was a friend, José María González. He talked highly of the work you do and the working conditions, but I made the decision thanks to Roger Janer. After meeting and working together, he recommended me and here I am.

● **What do you like about Valtria?**

Despite having been here a short time to be able to deepen on what I like, what I know is that I have worked with several technicians who have treated me very well, who have trusted me. I have felt welcome both by my colleagues at the site and by office people.

● **And outside Valtria, what activities do you enjoy doing in your free time?**

Outside work I do many activities. An activity I enjoy a lot is camping, but what I enjoy the most is spending as much time as possible with my six-year-old daughter Carolina Alejandra.
