

Added value to your projects

*Let's talk about **people**...*

NAME:

Piotr Placek

POSITION AND DELEGATION:

Commissioning Technician (Barcelona)

WHERE ARE YOU FROM?

I am Polish, from Cracovia, but I have been living in Spain for 17 years.

● **Why did you decide to join Valtria?**

I had been working at Klimacal as facilities commissioning technician. Klimacal became part of EMTE, an industrial department, like LUWA in the clean rooms department. Together we had a project in Tuluz and I got to know colleagues that currently work at Valtria.

I was transferred with the clean rooms department in Madrid to Warsaw, for a Polfa project, where I also met some other people working at Valtria.

● **What do you like about Valtria?**

It is a very serious and professional company. From my working experience as a commissioning technician, lab facilities were my favourite, because I found them the most interesting. For me it is an opportunity to work in something I really enjoy.

● **And outside Valtria, what activities do you enjoy doing in your free time?**

History interests me a lot and where I am I try to get to know the historical places and find information. I also like the mountains and their impressive views.
